GUIDE INDICE COMMERCIAL CANADIEN

2ème *PARTIE*

Commençant à la page 271, sur papier vert, se trouvent les noms et les adresses des manufacturiers.

3ème *PARTIE*

Commençant à la page 497, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.
Le mot principal en anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, p.e.: Quincaillerie, de construction: Cuir, coupe de bottines et chaussures. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, p.e.: Mécanisme de piano—Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on désire l'adresse de la rue, voir la 2ème Partie, commençant à la page 271. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqués par un astérisque★.

4ème *PARTIE*

Commençant à la page 988, la Section Spéciale indique les noms des exportateurs principaux des produits de la ferme, etc. La traduction française se trouve au revers.

5ème *PARTIE*

À la page F-1 sur papier vert, la Section de Traduction Française commence. Les noms des articles donnés dans l'Indice Français sont suivis par leur équivalent en anglais, et l'équivalent anglais se trouve placé alphabétiquement dans la 3ème Partie.

CANADIANS, more than any other people, benefit from **ELECTRIC POWER**

ELECTRICITY is almost as much a part of our life today as the air we breathe. Abundant low-cost power is one of the important reasons for so many busy factories . . . greater production of goods than ever before . . . and better paying jobs. In rural areas, too, wherever the power lines run, you'll find prosperous farms and greater living comfort. And in offices and homes, everywhere, electric power makes life easier and more enjoyable.

Since 1945, the demand for electricity has almost doubled and it is expected to double again within the next ten years. Keeping pace with this ever-increasing demand reflects great credit on Canada's power companies. Their engineers have changed the age-old courses of river, have tunnelled through mountains, created immense reservoirs and built massive dams to harness the energy of rushing water.

Other sources of energy are being used increasingly

Over 90 % of Canada's output of electricity is developed by water power. In some areas however, all the usable water power resources have been put to work, or soon will be. To help meet future needs, engineers are turning attention more and more to other sources of energy to operate steam or gas-driven turbine-generators.

The gas turbine is one of the newer methods of converting heat to electrical energy. Low-grade oil or natural gas is mixed with compressed air in a combustion chamber and the force of the resulting exhaust gases turns the turbine which drives the generator. Canadian General Electric is supplying gas turbines for a new station in British Columbia, which will be one of the largest of its kind in the world.

Canada's first atomic electric power plant being built

Canada's first atomic electric power plant being built near Chalk River, Ontario, by Canadian General Electric together with Atomic Energy of Canada and Ontario Hydro, signifies new horizons in the generation of electric power. The engineering knowledge and experience gained will be freely available to the nation's power companies.

For over 60 years Canadian General Electric has built much of the vast amount of equipment needed to generate, transmit and distribute electricity . . . and the wide variety of products that put electricity to use in homes and industry. There are over three times as many C.G.E. employees today as there were in 1939. They are designing, manufacturing and supplying the largest volume of electrical products in this Company's history. These products, including many which didn't exist a few years ago, help assure that Canadians will continue to live better, electrically.

6 POINTS

that prove CANADIAN TRADE INDEX does a round-the-clock job for advertisers . . .

1. Company presidents, vice-presidents, sales and purchasing executives in business firms and organizations, government offices, utilities, etc., in Canada and abroad use the INDEX regularly.

2. CANADIAN TRADE INDEX reaches the men who make or influence buying decisions.

3. Your prospect will be looking for your story in this most authoritative directory of Canadian manufacturers.

4. Only Canadian firms are listed editorially — and only Canadian-Made products or services are advertised.

5. Your free editorial listings shows your prospect that you are a source for the product he needs. BUT, his decision to buy from YOU may depend largely on your story of specifications and quality of product and service.

6. By presenting your complete message in an advertisement you reach him at the critical time—AT THE MOMENT OF BUYING DECISION.

ACT NOW—before it is too late!
